  Group Rates Available
  The Fairmont Turnberry Golf Resorts draws guests from everywhere with their world-class amenities. This resort is conveniently located between two major international airports: Miami International Airport and Fort Lauderdale Airport.
If you’re an novice, experienced, or dental surgeon, then this is a no-miss event to keep up with everything new in implant dentistry, and related bone grafting.

For nearly 20 years, this workshop continues to be the premier program for training dentists on implants and bone harvesting and grafting with dental implants, using cadaver specimens. Taught by the leading, multi-disciplinary team of clinicians/educators, the program blends the art and the science of dental implant surgery with the biology and general principles of bone grafting for dental implants to successfully understand bone harvesting and grafting, and its relationship to dental implants.

This is the ONLY program that features:

- State-of-the-art education, updated regularly
- Significant one-on-one interaction between participants and course faculty
- Limited class size and a 2:1 surgeon to cadaver ratio
- Step by step dissection manual in the workshop
- Clinical focus, including critical research underpinning for evidence-based treatment
- A precise understanding of the rationale and scientific basis behind clinical procedures and techniques
- CT scans provided in each specimen and reviewed with the faculty

In this lecture and workshop program, participants will gain the confidence and knowledge to perfect:

- Bone Grafting including Ridge Preservation
- Bone Harvesting
- Maxillary Sinus Grafting
- Flap Advancement
- Use of Ostetomes
- Ridge Splits

Plus, learn more about:

- Graft Materials
- Membranes
- Hard and Soft Tissue Management
- Using and Reading CT - Scans
- Use of Piezo Technology for Surgery
- Use of Growth Factors

REGISTRATION INFORMATION:

Register early to ensure your program seat. Limited class size is strictly enforced to maximize personal attention, interaction and the highest caliber learning and program outcome. The program is intense, yet casual with plenty of discussion and networking. Register today!

"Dr. Garg is extremely articulate, and knows this material better than anyone I’ve come across. His associate faculty are extremely knowledgeable and helpful."

Dr. A. Burton Melton – Prosthodontist, Nationally Known Implant Speaker
PROGRAM

DAY 1

8:00 a.m. Registration, Continental Breakfast and Meet with Exhibitors
8:30-12:15 Augmentation Grafting of the Maxillary Sinus to Maximize Success Rates
12:30-1:30 Lunch (included)
1:00-3:00 Selection of Appropriate Particulate Graft Materials and Appropriate Membranes
3:00-3:15 Refreshment Break
3:15-5:30 Osteotomes, Block Grafts, Ridge Splitting, Ridge Spreading and Clinical Applications
5:30-6:00 Growth Factors (Bone Morphogenic Protein) and their Clinical Applications

DAY 2

7:00 a.m. Continental Breakfast and Transportation to Hospital
8:00-4:30 Workshops with Extensive Hands-On Experience for Course Participants (with extensive faculty supervision)
4:00 Program Conclusion
