## **ARUN K. GARG** **POWER SERIES DIRECTOR**

Dr Arun Garg is the founder of Implant Seminars, the largest provider of dental implant continuing education. He is considered a global authority on bone biology, bone harvesting and bone grafting in dental implant surgery, all over the world. For nearly 20 years, he served as a full-time Professor of Surgery in the Division of Oral and Maxillofacial surgery at the University of Miami School of Medicine and as a Director of the Residency Training Program. He has written four books, translated into multiple languages and distributed worldwide. He is the immediate Past-President of the ICOI, the largest implant dentistry organization in the world with more than 12,000 members, and is the current president of the American Dental Implant Association. He has been a featured speaker at the Florida Dental Association annual meeting (FNDC), as well as the American Academy of Periodontology (AAP) annual meeting and at the American College of Oral and Maxillofacial Surgeons (ACOMS) Annual Meeting. He has served as both a committee member and Chairman for the South Florida District Dental Association (SFDDA) annual meeting. His private practice is located in the Miami Beach / Aventura area.

### **LEARN TO BE THE BEST - FROM THE BEST**

Course Participants will graduate with:

Four Level III Continuum Certificates, one from each weekend's lecture, issued by Implant Seminars Continuing Education at the end of the series.

## Myron Nevins, D.D.S.

Dr. Myron Nevins is an Associate Professor of Periodontology at the Harvard School of Dental Medicine, Clinical Professor of Periodontology at the Temple University School of Dentistry, Adjunct Professor of Periodontics at the University of North Carolina, and is a Consultant to the Bethesda Naval Hospital.

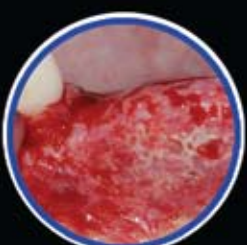

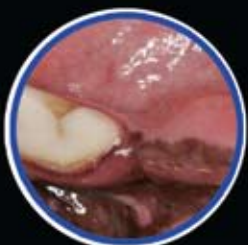

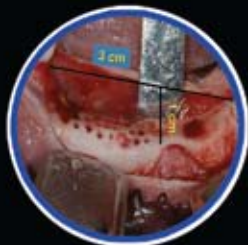

### **BIOLOGIC AND CLINICAL DECISIONS TO CONSIDER WHEN ARTICULATING THE IMPLANT TREATMENT PLAN**

This presentation will identify clinical challenges and appropriate solutions that result in a satisfied patient. It is omnipotent to allow the patient to comprehend both the advantages and limitations when formulating a comprehensive treatment plan.

The clinical issues of concern include the quality and quantity of both hard and soft tissues. The end point goals are more complicated to achieve when either is compromised and may require additional visits with the potential for complications. Contemporary regenerative possibilities are enhanced by the development of new biologics and their adaptability to the needs of patients.

There is the need to develop a problem based specific concept to achieve optimal esthetics that will satisfy discriminating patients. This is achieved by analyzing the availability of hard and soft tissues, the jaw relationship, the adjacent dentition, and the lip line.

This presentation will open the door for a new paradigm of treatment options for the clinician. It will potentiate the successful practice of both periodontal regeneration and bone enhancement for implant dentistry.

## **Rolf Ewers, D.D.S., Ph.D., MD**

**Chairman and Head of the University Hospital of Cranio-Maxillofacial and Oral Surgery of the Medical School, University of Vienna, Austria; Chairman, 17th International Conference on Oral & Maxillofacial Surgery, Vienna, Austria, August 2005; Oral & Maxillofacial Surgery Foundation Research Recognition Award 2005 of the Oral and Maxillofacial Surgery Association.**

### **Course Objective:**

**20 Years Experience with Bone Forming Materials to Enhance Missing Bone. Long Term Results and Future Perspectives with Covalent Binding of BMP-2 to Bone Forming Materials**

## **Susan McCormick, D.D.S.**

Suzanne McCormick, DDS, was appointed by Governor Schwarzenegger in January 2006 to the Dental Board of California. She is an Oral and Maxillofacial surgeon in private practice who is an active staff member at the Department of Oral and Maxillofacial Surgery at Tri-City Medical Center in Oceanside, California. She has been affiliated with many hospitals including, but not limited to, Health North Medical Center, Loma Linda University Medical Center, Riverside Medical Center, Metropolitan Medical Center, St. Vincent's Hospital and Medical Center, and New York University Medical Center. Dr. McCormick has served as an Assistant Professor for various academic institutions in New York and California, then as Professor and Chair of the Department of Oral and Maxillofacial Surgery, Loma Linda University. She has lectured nationally and internationally and has authored numerous scientific publications on bone regeneration. She is a currently a member of the following professional organizations: California Dental Association, American Dental Association; the San Diego County Dental Association, American Dental Association; Prytanean Honor Society, University of California, Berkeley; American Cleft Palate-Craniofacial Association; American Dental Society of Anesthesiology; American Association of Women Dentists; Alumni Association of Student Clinicians of the American Dental Association; Delta Sigma Delta, American Association of Oral and Maxillofacial Surgeons; International Association of Oral and Maxillofacial Surgeons; the International Craniofacial Society, and has served on the Continuing Education Committee for both the American Association of Oral and Maxillofacial Surgeons and the California Society of Oral and Maxillofacial Surgeons. She holds fellowship in the Omicron Kappa Upsilon Honor Society, the Academy of Dentistry International and has served as Trustee from District I, of the Board of Directors, International College of Oral and Maxillofacial Surgeons.

## **Mitchell A. Josephs, DDS**

**Dr. Mitchell A. Josephs, has a cosmetic and implant dental practice in Palm Beach. A graduate of McGill University in Montreal, Dr. Josephs completed his dental medicine residency at Beth Israel Medical Center in New York City. After completing his residency, he had a practice on Central Park West where he continued to perfect his skills and education in the field of cosmetic dentistry.**

**In 1992, Dr. Josephs obtained his current practice in Palm Beach. Since moving to Florida, Dr. Josephs has continued to excel in his field and his practice has grown 300% since his arrival. He attributes his success to a combination of state-of-the-art technology, individual care, and innovative service techniques. Dr. Josephs and his staff of trained technicians are committed to providing the highest quality materials and methods for aesthetic dentistry.**

## **Rezno Casellini, M.D.T.**

**Rezno Casellini is a Master Dental Technologist, trained in Switzerland where his family has been in the dental industry for four generations, He is Instructor of Restorative Dentistry at Loma Linda University.**

## TESTIMONIALS

*“Thanks for a clear, concise, effective, and informative presentation that cut through all the smoke and went straight to the point.”*

*Dr. George Saliba • Houston, TX*

*“If any dentist out there thinks he or she can’t — you can! Dr. Garg and his incredible staff make it possible not only academically, but financially as well.*

*Each session is scientifically backed-up with credible research. They equip you mentally, so you can return to your practice on Monday and actually apply the techniques on your patients.*

*It is a win-win for me and my patients!”*

*Dr. Misty Brown • Keller, TX*

*“Dr. Garg is a very giving instructor. Very approachable and helpful.”*

*Dr. Lawrence Hale • Venice, FL*

*“One program where I got MORE than I hoped for or expected.”*

*Dr. Ron Barry • Delmar, CA*

*“Great program! This course gave me the confidence to place my first implant. And many more!!!”*

*Dr. Yuey S Moy • Upper Marlboro, MD*

# Become a Gold Member!

When you register for the Level III Implant Continuum (Power Series), you are eligible to attend all the programs listed below, plus the Masters Series for FREE!

## The Art, the Science and the Business of Aesthetic Dentistry

*"An Aesthetic Dentistry Continuum"*

This exciting program will show you how to evaluate which cases to treat and how to gain treatment acceptance from your patients using advanced restorative dentistry. This course will explore the trials and tribulations of successful aesthetic dentistry and how everyone benefits from helping patients achieve beauty, good health and confidence.

Orlando, FL &  
New York, NY at NYU 2010

## The Miami Implant Update

*American Dental Implant Association Annual Symposium*

The American Dental Implant Association provides powerful, interesting and dynamic educational experiences in an environment that encourages and supports friendship and fellowship. This meeting will allow for the opportunity to learn from world-renowned experts and visionaries in the fields of surgery, periodontics, prosthetics and dental technology.

• Miami, FL

## Medical Billing

*For the Comprehensive Dental Practice*

*"Begin Billing Dental Procedures Through Medical Insurance Today!"*

This two-day presentation will discuss the different medical plans, the basics of medical diagnosis and procedure coding, as well as documentation requirements. A wide variety of claim examples for procedures commonly performed in the comprehensive dental practice will be presented and discussed, followed by a billing workshop and hands-on claim presentation.

Doctors and two staff members are FREE!

• Miami • San Francisco

## The Mini-Implant Certification Seminar

This Mini-Implant Certification Seminar is designed for dentists who want to expand their practice regimens by adding a minimally invasive implant system as a definitive solution for patients' loose dentures. This hands-on course emphasizes treatment planning, case selection, implant placement protocol, restorative techniques and marketing strategies.

• Tampa, FL

## The Art and Science of Dental Pharmacology & Therapeutics:

*What you need to know in 2009.*

This two-day course is designed for everyone: general practitioners, specialists, oral and maxillofacial surgeons, hygienists, and dental assistants. Sedation and Pharmacology Dentistry covers all aspects of inhalation analgesia, including the best methods for dealing with anxiety control.

If you use any form of inhalation analgesia in your office, or are considering it, this course will remove any doubt in your abilities.

• Miami, FL

## Bone Morphogenic Proteins:

*Science, Techniques, and Clinical Applications in Oral and Maxillofacial Surgery:*

This comprehensive one-day course will present practical, cutting-edge information in all areas of bone grafting that can be put into immediate clinical use. An in-depth look at the wide spectrum of problems and available treatment modalities, from sinus lifts, ridge augmentations, and treatment of periodontal and peri-implant defects will be presented.

• NY, FL, CA, MA, NV, DC, and TX
