IMPLANT DENTISTRY CONTINUUM
LECTURES & HANDS-ON WORKSHOPS

Gain the Knowledge and Confidence to Successfully Place and Restore Dental Implants with Dr. Arun Garg

SAN FRANCISCO
MARCH 2009 - AUGUST 2009
Dr. Arun Garg has been inspiring dentists, with hands-on training, to achieve the knowledge and confidence to place implants, for 20 years.

Are you interested in placing and/or restoring your first implant? Or do you want to enhance your dental implantology skills? If the answer is “Yes,” Dr. Arun K. Garg’s Implant Dentistry Continuum is for you. In six weekends spread over six months, you will learn the latest concepts, techniques and technologies required to successfully place and restore implants in your practice.

The Continuum offers a convenient weekend-only schedule to accommodate your busy schedule. In this spaced repetition learning format, you will take the knowledge gained in each session and apply it in your practice the following month. Then you will return, discuss your experience with the instructors, receive additional coaching, and learn additional surgical and restorative skills.

What makes the Implant Dentistry Continuum so unique and valuable are the hands-on workshops. You won’t just sit and listen. You will do! Using specially designed surgical, soft tissue, and prosthetic models, you will sharpen your skills under the watchful eyes of a caring faculty before you return to the office. You will also have the opportunity to test and evaluate the major implant systems on the market today.

It takes confidence to place dental implants. When you participate in the Implant Dentistry Continuum, your confidence will come from being skilled at what you do and from having a team of people around you who provide support and inspiration during the initial stages of learning.

Intrigued? If so, read on. A new world of implant dentistry success awaits you.
EXTENSIVE HANDS-ON TRAINING AND INTERACTION WITH THE FACULTY

HANDS-ON SESSIONS
The hands-on sessions held throughout the Implant Dentistry Continuum will play a vital part in helping you apply the implant techniques discussed in the lectures. You won’t just sit in the audience and listen. Because most dentists learn best by doing, you will use specially designed surgical, soft tissue, and prosthetic models to enhance your skills before you return to the office. You will also have the opportunity to test and evaluate the major implant systems on the market today.

FACULTY INTERACTION
The Continuum faculty members are the leading authorities in the information they cover. Not only are they knowledgeable and experienced, they are enthusiastic about their topics. You will have numerous opportunities to have one-on-one interaction with them and Dr. Garg.

LIMITED CLASS SIZE
The limited class size of the Implant Dentistry Continuum has three major advantages. First, you will bring your own cases for review and treatment planning with the faculty. Second, you will have the opportunity to form lasting relationships with fellow dentists who are on the same implant excellence path as you. Finally, you will have phone and email consultations with faculty during and after the Continuum to discuss all aspects of the surgical and prosthetic phases of implant treatment.
CONTINUUM INFORMATION

PROGRAM DATES
Saturdays and Sundays
March 21-22, 2009
April 18-19, 2009
May 16-17, 2009

One program where I got more than I hoped for.”

Dr. Ron Barry Delmar, CA

“I now feel confident with the skill set provided by this course to place implants in my practice!”

Dr. Edward J. Sharkey Ellicott City, MD

“Dr. Garg teaches the nuts and bolts of implant dentistry in a way that gave me the confidence I needed to make this incredible shift in my career. I was placing implants immediately through the course! Thank you Dr. Garg!”

Dr. E. Paige Crowder Waynesboro, VA
ARUN K. GARG, DMD
Dr. Arun K. Garg earned engineering and dental degrees from the University of Florida and then completed his residency training at the University of Miami Jackson Memorial Hospital. For nearly twenty years, Arun served as a full-time Professor of Surgery in the Division of Oral and Maxillofacial Surgery and as Director of Residency Training at the University of Miami School of Medicine. He was frequently recognized as “faculty member of the year” by his residents.

Dr. Garg is the founder of Implant Seminars, the nation’s largest provider of dental implant continuing education. He is considered the world’s preeminent authority on bone biology, bone harvesting and bone grafting for dental implant surgery. He has written and published five books, which have been translated into multiple languages and distributed worldwide. Dr. Garg is the past president of the ICOI and is the current president of the American Dental Implant Association.

Arun is a highly respected clinician and educator. He has been a featured speaker at dozens of state, national and international dental association conventions and meetings, including the American Academy of Periodontology, the American College of Oral and Maxillofacial Surgeons and the ICOI. Dr. Garg has received numerous awards, including outstanding educator by the ICOI and an award for best article published by the Implant Dentistry Journal.

In addition, Dr. Garg has developed and refined many surgical techniques and devices that simplify surgery while making it more predictable. His private practice is located in Miami Beach, Florida.

TESTIMONIALS

“This is by far the best continuing education class I’ve taken in my 27 years of practice! Great lectures and vendors essential for getting started!! These seminars have it all!”

Dr. Glenn Gerald Oakton, VA

“If any dentist out there thinks he or she can’t place implants you can! Dr Garg and his incredible staff make it possible, not only academically, but financially as well. Each course is scientifically backed-up with credible research. They also equip you mentally, so you can return to your practice on Monday and actually apply the techniques on your patients. It is a win-win for me and my patients!”

Dr. Misty Brown Keller, TX

“I FINALLY did it! Ended my day yesterday with a ridge preservation and implant to follow and started my day today with a consultation for 4 to 6 implants. I’ve been spending my evenings reading your books so I felt prepared. Just made my post-op call and the patient is fine. I’m looking at each patient in a whole new perspective now and I’m finding that after your seminars they are excited as I am to start treatment! I can’t thank you enough!!”

Dr. Tane Rontal Brentwood, CA

“Thanks for a clear, concise, effective, and informative presentation that cut through all the smoke and went straight to the point.”

Dr. George Saliba Houston, TX

“Dr Garg is a great speaker and extremely knowledgeable and organized. Very practical.”

Dr. Paul Cavalluzzo Palm Coast, FL

“I placed my first six implants halfway through taking your Continuum!”

Dr. Yuey S. Moy Upper Marlboro, MD

“I learned more about dental implants in six months than I have in the previous 10 years from both a surgical and prosthetic standpoint.”

Dr. Thomas Scibor Buffalo, NY

“This course was comprehensive and definitely has given me the knowledge and confidence to place implants with a high degree of skill!”

Dr. Stafford Conley Bowie, MD
